## **Rider Responsibilities**

- Check your assigned horse for missing or twisted shoes and any sign of injury before grooming and tack up begins. Immediately inform your instructor of any findings.
- Students can and should expect to ride different horses on a weekly basis. Lease and boarding riders will ride their horse unless otherwise instructed.
- Prior to tacking, properly groom your horse and pick the hooves.
- Pick up any droppings from your horse. This goes for both after tacking and after untacking.
- After your lesson, properly groom your horse. Apply fly spray or any other treatment if needed.
- Generally if your horse sweated during the ride, you should at least spray him down. Periodically he should be washed and conditioned. Speak to your instructor if you are uncertain about what you should do.
- After completing your grooming, return all grooming supplies including all tack. Please store all halters, bridles, saddles, saddle pads, and girths properly. Saddles should be returned to the assigned saddle rack with the front (pommel) of the saddle towards the wall and with the stirrup irons run up appropriately.
- All of your personal supplies and tack must be stored in your storage trunk, saddle rack, or bridle hooks.
- Any supplies or tack that is left out will be placed in the lost and found temporarily. Periodically the lost and found will be emptied and the supplies and tack returned to the barn's supply.

- When your horse's body temperature has cooled and he is properly groomed, return him back to the location from which he was retrieved or as indicated by your instructor.
- Lock all gates and stall doors behind you. The horses can get hurt if they are allowed into areas they should not be.
